Timeline Directions
Stacey Lane

You can make a simple timeline to accompany the lessons in *All American History Jr.* using a long piece of string (about five feet) and the Timeline Figures that you will find following these directions. Timeline Figures have been created for many (but not all) of the lessons.

It works best to produce a separate timeline for each of the four quarters.

When working on a lesson, the Timeline Figures for that lesson should be cut out and the appropriate dates written on the top, bottom, or side of the figures or even inside the figures.

The lesson plans provide the dates to write on each lesson's Timeline Figures. You can also find those dates in boxes beneath the figures.

Once a lesson's Timeline Figures have been cut out and the dates added to them, the figures should be folded over the string and stapled shut. The figures will stay in place better if you place your staples at the top of the figure close to the string.

Storing your timeline in a Ziploc bag will help prevent it from becoming tangled.
